

## MISTILIA Diffuser Specifications

### Setting up the Mistilia diffuser

1. Unscrew the top cover (1/4 turn, counterclockwise) to remove it
2. Pour floral water or 10ml of water for a maximum of 3 drops of essential oil into the reservoir.
3. Replace the top cover. Ensure the lid is properly tightened. Give the whole thing a good shake.
4. Slide the button down to turn the diffuser on.
5. To charge the battery of your Mistilia diffuser, plug it into a USB socket using the cable supplied. The light is red when the product is charging, then turns off when fully charged.

### Operating principle of the Mistilia diffuser

Slide the button down, the light turns blue. The device diffuses for 60 seconds and then turns off automatically.

8 to 10 cycles of 60 seconds of diffusion to empty the 10ml reservoir.

Slide the button up to stop diffusion.

Mistilia recharges in 1hr30 for a continuous diffusion time of one hour.

### Features of the Mistilia diffuser

- Number of drops of essential oils: 3 maximum for 10 ml of water.
- USB cable provided to charge the device.
- Charging time: 1.5 hours.
- Power: 2.5W, 5V, 500mA
- Battery: 400mAh lithium battery

### The Mistilia diffuser box contains

- A Mistilia essential oils diffuser
- A USB/110-240VAC adapter
- Instructions in 7 languages

### Instructions for using the Mistilia diffuser

Thick oils such as vetiver, amyris, patchouli and others may clog the device. If this happens, use a cotton bud with alcohol to clean the mist outlet. If you want to diffuse them, you can mix them with lighter essential oils such as orange or lemon. When using pure essential oils, do not diffuse them towards the face or a naked flame.

Only use essential oils and synergies recommended for diffusion into the air.

### Looking after your Mistilia diffuser

Using a soaked cotton bud, gently rub the outside of the metallic disc to dilute any traces and complete, if necessary, with 3 or 4 drops of alcohol or **cleaner** in the reservoir.

Start diffusion.

Do not use detergent.

### Specifications:

Product height	100 mm	Product weight	50 g
Product width	30 mm	Recommended retail price (TTC)	28,99
Depth of the product	30 mm	recommended by the manufacturer	
Maximum diffusion area	25 m2	Manufacturer Warranty	5 years
Conditioning	12 pieces by box	Rechargeable battery	Yes
EAN Code	3700471002127
